THE UNIVERSITY OF HULL

SYSTEMIC INSIGHTS ON CARDIAC INFORMATICS  
*Themes and Perspectives from the UK*

RAJNEESH CHOWDHURY  
University of Hull &  
National Health Service,  
United Kingdom.

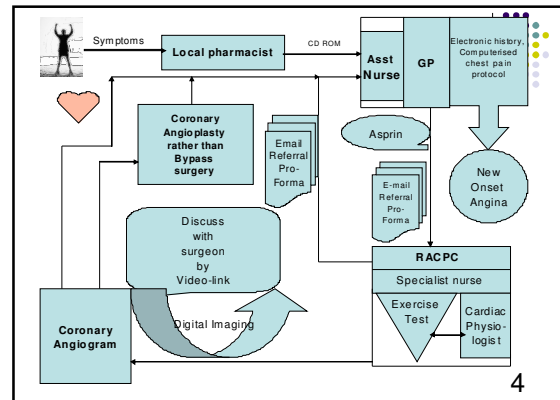

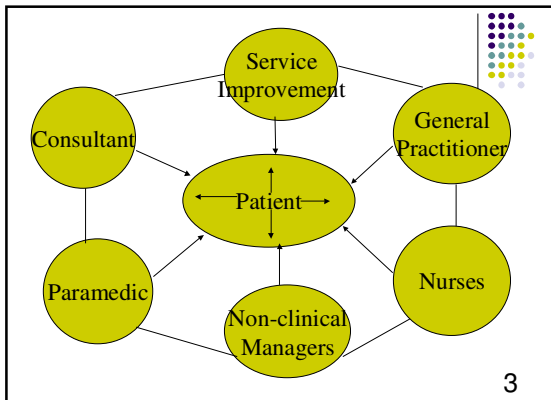

1

A £6.2 billion programme has been formulated to deliver 4 key elements:

- NHS Care record service,
- Electronic appointment booking,
- Electronic transmission of prescriptions, and
- Underpinning IT infrastructure and network.

2

- **PRIMIS**: Primary Care Information Service.
- **PRODIGY**: Evidence-based decision support systems.

5

PRODIGY

- Information for use during the consultation
- Information as a learning resource
- Information for patients
- Patient information Leaflets (PILs)
- Shared screens
- Advise notes.
